

Wrapt Labels are pleased to announce we have joined the Avery Dennison Recycling program.

This is currently being carried out throughout NZ on glassine backing and we are hopeful this will also include PET backing in the not too distant future.

What this means for you is we now have the opportunity both as a part of the label production industry and the produce/food/beverage industry to keep our waste out of landfills and have it reused and recycled. This program sends the waste over to India where the liner is recycled with other paper through a pulping process. This pulp is then used to create tissue paper which is the redistributed around the world.

We are currently using this program inhouse and hope many of our clients will join us.

If you have the volume to support joining the program yourself we have information in the following pages on cost and how to get onboard this program, if you aren't sure if you have the volume to support this or know you have minimal waste but would still like to contribute what you do have then please reach out to your account manager to gain more information on how we can work with you to keep the glassine liner out of landfills and in the recycling program.

Please note whilst the following info says the programme is only running in the North Island we have worked along side averys to also get this running in the South Island with only a slightly different process around shipping. If you are based in the South Island please get in touch with your account manger who can step you through this.

We look forward to working with you and keeping as much waste as possible from our industries out of the landfills.

Avery Dennison delivers an effective solution to recycle your Glassine Liner Waste

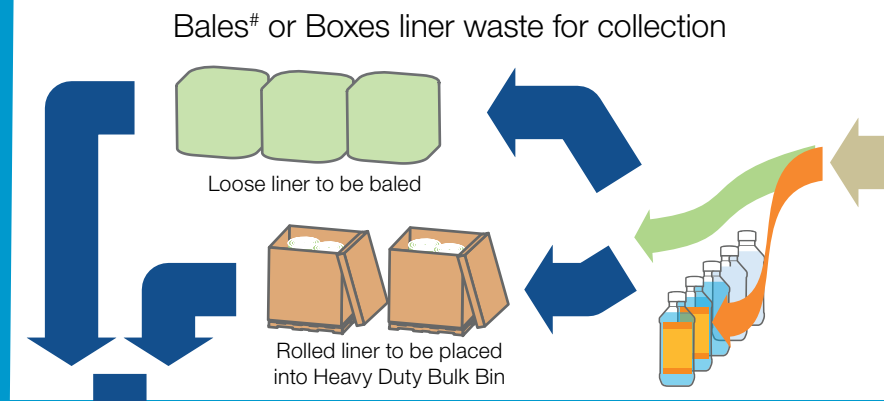

Glassine Liner Recycling Program

Brand Owner

Requirements:

- Liner must be Baled, or as rolls, placed into Heavy Duty Bulk Bin.
- Stored in a dry location
- White Glassine Liner Only (No Yellow/Kraft/PE Coated)
- Liner must be free of labels, adhesives, plastic material & carton board
- Maximum 2% residual label contamination

Don't have a Baler?

Heavy Duty Bulk Bin Boxes can be purchased directly from Avery Dennison. Contacts for lease of baling systems can be supplied by Avery Dennison.

Available at several locations in ANZ. All Liner Recycling Program participants will enter into a service agreement directly with Avery Dennison which outlines all agreed terms and conditions including associated costs.

An assessment and quotation will be provided prior to commencement of the program at your site(s).

*500kg Baler size is ideal.

Avery Dennison Glassine Liner Recycling Program - Business Rules

Participation in the Program requires compliance to Avery Dennison's Glassine Liner Recycling Terms and Conditions of Trade ("Agreement") which are annexed to these Business Rules

Boxes

Min: 500kg — Max: 1 tonne

- ▶ Heavy Duty Pallet boxes must be approved by or purchased from Avery Dennison prior to use as there are strict requirements for the box specification.
- ▶ Boxes must be stored on heat treated export grade pallets (i.e. ISPM15 certified)
- ▶ Boxes must have a lid
- ▶ Box must be max size 1.16m (L) x 1.16m (W) x 1.0m (H).
- ▶ Boxes must not overhang the pallet
- ▶ Maximum height of a box stacked on pallet is 1.15m (inclusive of pallet and box)
- ▶ Filled boxes must be min 500kg each, maximum weight of each box is 1 tonne
- ▶ Boxes must have a 1 Tonne carrying capacity and be able to be double stacked
- ▶ A Recycling Program Label form (provided by your Avery Dennison contact) must be completed and adhered to the outside of every Heavy Duty Pallet box.

Bales

Ideal: 500kg

- ▶ Bales must be stored on heat treated export grade pallets and shrink wrapped to ensure liner remains clean
- ▶ 500kg Bale size is ideal.
- ▶ Contacts for lease of baling systems may be supplied by Avery Dennison, if requested by the customer.
- ▶ Bales must not overhang the pallet
- ▶ A Recycling Program Label form (provided by your Avery Dennison contact) must be completed and adhered to the outside of every liner bale.

Pallets

- ▶ Pallets must be heat treated (export grade - ISPM15)
- ▶ Pallets size for Australia must be min size 1.1m (L) x 1.1m (W) , max size 1.16m (L) x 1.16m (W)
- ▶ Pallets size for New Zealand must be 1.0m (L) x 1.2 m (W)

Liner Waste - Conditions & Storage

- ▶ Liner must be clean/dry/free of contaminants
- ▶ White Glassine Liner Only (No Yellow / Kraft / PE Coated)
- ▶ Liner can be collected as tightly wound rolls, with or without cores
- ▶ Loose liner is less suitable and needs to be compacted to achieve the 500kg requirement per pallet
- ▶ Liner must be free of labels, adhesives and plastic material
- ▶ Maximum 2% residual label contamination

How to start using the Avery Dennison/Wrapt Labels Glassine Liner Recycling program

1. You must agree to comply to the Glassine Liner Recycling Terms and Conditions of Trade annexed to these Business Rules.
2. A customer account with Wrapt Labels must be existing or created to start using this program, alternatively if you would prefer to work direct with Avery Dennison we are happy to help facilitate this and you will need to set up an account with them.
3. The Handling fee is a mandatory cost for using the program, which is payable to Wrapt labels who will pass this on to Avery Dennison. This is charged for each pallet of liner and covers the cost of administration, processing and handling. Details of the fees and charges payable are supplied in the following pages. Please note Wrapt Labels are only passing cost on, we are not making a profit from this or adding margin to the costs.
 - a. Should you wish to only take 1 box not 3 as required for a minimum order please get in touch with your account manager. What we can do is order 3 pallets on our behalf and get them sent to separate addresses. Eg. If we had 3 clients request for this we would order a bulk of 3 and send them all to separate places.
4. Detailed on the price list are OPTIONAL services and packaging components which are available for purchase if required.

Ordering Packaging Components from Avery Dennison

1. Email to be sent to the following:
 - ▶ Your account manager or if you have an account set up direct with Avery Dennison you can contact them direct.
2. Email to include the following:
 - i. Purchase Order Number
 - ii. List packaging components required (Item number and quantity)
 - iii. Specify if delivery to be arranged by Wrapt Labels/Avery Dennison or if pick up of goods will be arranged by customer. South Island must arrange their own shipping.
3. You will receive an order acknowledgment from Wrapt Labels/Avery Dennison, confirming your order has been processed.
4. Deliveries of packaging goods will take 3 business days from such date of acknowledgement received by the customer.
5. Pick ups may also be arranged on request from the below location (which shall be intimated at the time of placing the order by the customer). The date and time of such pickups by the customer will require 24 hour prior notice to Avery Dennison. The facility is available at the following Avery Dennison locations:
 - ▶ **Avery Dennison Auckland:** 9 George Bourke Drive, Mt Wellington

Packaging Materials

Arranging for Waste Liner collection/drop off to Avery Dennison

1. Email to be sent to:
 - ▶ **Avery Dennison**— nzsales.anz@ap.averydennison.com
2. Email to include the following:
 - i. Purchase Order Number
 - ii. List Number of Liner Pallets to be sent to Avery Dennison.
 - iii. Photograph of each pallet showing liner contained in box/ bale.
 - iv. Specify if collection of liner pallets by Avery Dennison is required or if drop to an Avery Dennison site will be arranged independently.
3. Avery Dennison collection of liner pallets will be available on the 15th and 30th of each month, or next business day if this falls on weekends or public holidays. All orders for collection need to be received a minimum of 2 business days prior to collection dates.
4. All orders for liner pallets to be dropped off to an Avery Dennison site, need to be received a minimum of 2 business days prior to drop off date. Drop off points are available at the following Avery Dennison locations:
 - ▶ **Avery Dennison Auckland** : 9 George Bourke Drive, Mt Wellington

Audit of Recycler and Mill(s)

- ▶ Avery Dennison site reviews / informal audits are conducted at the recycling mill(s) in India from time to time
- ▶ Avery Dennison requires Recycler to have current certification to local & international standards - ISO 9001 minimum
- ▶ Avery Dennison requires Recycler to have current Local Pollution Control Board certification (PCB)
- ▶ Avery Dennison requires Recycler to have current compliance to child-labour - 3rd party certified
- ▶ The option is available for any customers, brand owners, end users to visit anytime at their cost should they wish to independently audit the mill

Disclaimer

This program is provided in good faith and Avery Dennison are not liable for any interruptions or changes to the program. All participants are obliged to supply liner waste as per conditions above.

Avery Dennison Glassine Liner Recycling Program - Frequently Asked Questions

Why is only white glassine liner suitable for the recycling program?

The recycler has very strict quality criteria and can only accept white glassine liner. Mixing other colours and grades of liner together with the white glassine liner will render the entire pallet/shipment unsuitable for use in the recycling operation as it would change the composition and quality of the tissue paper that is produced.

What product is manufactured in the glassine liner recycling program?

Currently glassine liner is being recycled to produce tissue paper which is used in the apparel and footwear industry. The tissue is used to wrap garments and line shoe boxes. This tissue paper is also recyclable. If in future there are changes made in the recycled end use product we will let you know.

What is the cost of using the Recycling Program?

Cost of the program varies depending on a range of factors but is typically less than mixed waste cost of dumping liner in landfill. The Handling fee is the only mandatory cost for using the program. This is charged for each pallet of liner sent to Avery Dennison for recycling and covers the cost of administration, processing and handling. Other services and packaging options are available from Avery Dennison (as per price list) but it is optional as to whether they be arranged through Avery or independently.

Can I use my own Heavy duty boxes ?

Yes this is possible, as long as the boxes and or pallets fulfill the criteria as outlined in the business rules.

Can I use my own pallets?

Yes this is possible, as long as they are export grade pallets, i.e. they must be flame/heat treated. Pallets size must be min size 1100mm (L) x 1100mm (W) , max size 1160mm (L) x 1160mm (W).

What happens to the heavy duty boxes, shrink film and pallets when they reach the recycling plant?

The cardboard boxes and the shrink film is channeled into recycling streams and the wooden pallets are reused.

Is the program only accepting white glassine liner supplied by Avery Dennison?

The aim of the program is to prevent all white glassine liner from being sent to land fill. Given this, the recycling program will accept glassine liner provided by all Pressure Sensitive suppliers.

Where is the Recycling program available?

The program is available across the Australian mainland and in the north island of New Zealand.

Is there a minimum weight required for the liner contained in the boxes and bales?

In both the bales and boxes, the liner must be a minimum of 500kg and a maximum of 1 Tonne per pallet

Is the liner being recycled in ANZ?

It would be ideal to have a recycling option available in ANZ, but unfortunately there is currently no such option available. The recycling program we are using is based in India.

What happens to the silicone layer on the liner?

The recycling facility is able to accept the white glassine liner in its entirety without having to remove the silicone layer. It is able to do this by combining the siliconised liner with other white paper in the recycling feed stream. The siliconised white glassine liner can make up a maximum of 20% of the recycling feed and silicone is undetectable in the finished product.

Is there a liner recycling program for PET liners?

We do not yet have a recycling stream for PET liners in ANZ but we are working hard to find sustainable long term options.

AVERY DENNISON MATERIALS PTY. LTD.

GLASSINE LINER RECYCLING TERMS AND CONDITIONS OF TRADE

By engaging Avery Dennison Materials Pty Ltd (**Company**) to collect and recycle Glassine Liner waste (**Waste**) you agree to the following terms and conditions.

1. GENERAL

An order placed with the Company for collection and recycling of Waste is an order incorporating these Terms and Conditions of Trade exclusively notwithstanding any inconsistencies which may be introduced in order of acceptance unless the same are expressly agreed to by the Company in writing, and notwithstanding that the Company may fill any such order.

2. QUOTATION

Unless previously withdrawn any quotation is valid for thirty (30) days, or such other period as is stated therein. A Quotation is not an obligation to collect and recycle Waste but is in an invitation to submit an order and no contractual relationship arises therefrom until the Company has accepted an order.

3. WASTE CONTENTS

Only White Glassine Liner is eligible for collection and recycling by the Company. It is your responsibility to ensure that the Waste you make available for collection and recycling contains only White Glassine Liner and:

- (a) does not contain any yellow, Kraft or PE coated materials;
- (b) does not contain any plastic materials or other contaminants; and
- (c) has a maximum of two percent (2%) residual label contamination
- (d)

4. WASTE STORAGE

Company will only collect and recycle Waste which:

- (a) is and has at all times been stored in a clean and dry location at your premises;
- (b) is a minimum 500kg baled pallet load or box ;
- (c) is collected as rolls, tightly wound, with or without cores, or if loose sheets, is compacted, and in each case is placed into pre-approved Bulk Pallet Boxes.

All Bulk Pallet boxes must be either obtained from Company or approved by Company prior to use and must meet Company's specifications including:

- (d) Maximum height of 1.15m (1150mm) inclusive of pallet and
- (e) Minimum weight of 500 kgs (with a variance of 10% that may be approved by Avery Dennison at their sole discretion)
- (f) Maximum weight 1 tonne

Only heat treated export rated pallets must be used.

5. PREMISES INSPECTION

You agree that the Company may carry out an inspection of your premises prior to acceptance of any order placed by you for collection and recycling of Waste for the purposes of determining whether you comply with the criteria specified in clauses 3 and 4 of these Terms and Conditions of Trade (Criteria). Company may reject any order where it determines that you have not or will not comply with the Criteria or any one of them.

6. ORDERS

Any order must be in writing, bear a reference number and be signed by you. In the absence of a written order the Company reserves the right to reject or cancel any order. Orders are subject to acceptance by the Company.

7. ORDERING OVER THE INTERNET

In this clause:

- (1) "Non-secure Location" means a location other than a Secure Location including but not limited to:
- (a) internet cafes;
 - (b) a residence;
 - (c) hotels or motels; or
 - (d) airport lounges;

(2) "Secure Location" means any office maintained by you which houses a secure local area network (LAN) that is used in the ordinary course of business to allow staff to access the Internet. For convenience you may place an order via a Company

Website (“**on-line ordering system**”). The Company may issue you with one or more usernames/passwords (“**Password**”) for this purpose.

You may at any time use the on-line ordering system from a Secure Location. You must not attempt to access the on-line ordering system from a Non-Secure Location. You may only access the on-line ordering system from a Non-Secure Location if it is not practicable to access the on-line ordering system from a Secure Location.

You must ensure that Passwords are kept safe and secure at all times. You must ensure that:

- (1) you do not reveal or otherwise disclose your Password/s to unauthorised persons;
- (2) your Password/s is not recorded in any way that would allow a third party to identify it as an access device.

You must notify the Company of any Password that:

- (3) has been compromised or is suspected of being compromised; or
- (4) has been used in an unauthorised manner or is suspected of being used in an unauthorised manner

as soon as you become aware of such facts.

The Company may invalidate a Password at any time without notice to you if the Company believes in its absolute discretion that the Password is being, or has been, used in an unauthorised manner.

You must ensure that prior to an officer or employee of you obtaining a Password, that such officer or employee agrees to be bound by the terms and conditions in this clause 7.

You must ensure that any officer, employee or any other person who obtains a Password is authorised to use the on-line ordering system, including for the purposes of:

- (1) accessing order status information; and
- (2) making orders on behalf of the Purchaser.

If any officer, employee or other person ceases to have authority to use a Password for whatever reason (including termination of employment), you must immediately change any and all Passwords that were disclosed or in any way made known to that person.

You shall indemnify the Company for any direct or indirect loss it suffers as a result of a breach of the terms and conditions in this clause 7. You are responsible for all orders and other communications sent to the Company as a result of the use of your Password(s).

8. PRICE

The price for the collection and recycling of Waste and for any Bulk Pallet boxes to be supplied by the Company shall be that quoted by the Company and shall include a handling fee (**Price**). The Company reserves the right to change Prices without notice. Prices are net to the Company and are exclusive of any customs or other duties and taxes and shipping charges.

You acknowledge and agree that no representation is made by the Company that the Price will represent a cost neutral or better position when compared to any existing or other Waste disposal fees you may have or will in future incur.

9. CANCELLATION

Orders cannot be cancelled except upon terms, which will fully compensate the Company against all and any loss occasioned to it as a consequence of such cancellation.

10. PAYMENT

The terms of payment are 30 days from statement date (unless otherwise agreed) with a discount, the quantum of which the Company will determine in its absolute discretion, for payment of accounts within 21 days of invoice date.

Amounts not paid within thirty days of date of invoice will be subject to a late payment charge of 1.0% per month on the unpaid balance to be included on each month's statement until paid. The imposition of such charge is not intended to infer any consent, acquiescence or other agreement, expressed or implied, on the part of the Company to forbear or otherwise defer collection of such amounts when due. To the contrary, the Company expects payment on or before the due date of each invoice and intends to take all necessary and feasible action to enforce prompt payment. You confirm, acknowledge and agree that it would be impracticable, extremely difficult and unduly expensive to attempt to determine the actual damage sustained by the Company as the result of the default in payment of any individual account and that the charge of 1.0% per month referred to above represents a reasonable endeavour to fix the Company's minimum probable loss resulting from delinquent payment, that such charge bears a reasonable relation to such loss and that such charge is reasonable in amount. If in the Company's opinion your financial condition does not justify continuance of collection and recycling on the terms of payment specified, the Company may require payments in advance. Failure by you to pay any Company invoice by its due date makes all subsequent

invoices immediately due and payable irrespective of terms and the Company may withhold subsequent collection and recycling of Waste until the full account is settled.

11 ACCEPTANCE

The Company reserves the right to accept any order in whole or in part or to refuse any Order.

12 COLLECTION

You may elect to deliver Waste to the Company at one of its designated locations or to have the Company collect the Waste from your premises. Where you elect to have Waste collected by the Company, all collection dates quoted are estimates only and the Company shall not be liable for failure to collect or any delay in collection arising from any cause whatsoever beyond the control on the Company. You shall not be relieved of any obligation to accept or pay for collection by reason of any delay in collection.

13. FORCE MAJEURE

The Company shall not be liable for any loss, damage, delays, changes in shipment schedules or failure to collect caused by accident, fire, strike, riot, civil commotion, insurrection, war, the elements, embargo, failure of carrier, inability to obtain transportation facilities, government requirements, acts of God or public enemy, prior orders from others or limitations on the Company's or its suppliers' products or marketing activities or any other cause or contingency beyond the Company's control.

14. ENTIRE AGREEMENT

These terms and conditions embody the entire agreement and understanding between the parties, are intended as a complete and exclusive statement of the terms of agreement regarding the collection and recycling of Waste and supersede any prior or collateral agreement or understanding between the parties relating to the subject matter hereof (including those that may be contained on your order, which are inconsistent with the terms and conditions in these Terms and Conditions of Trade). You acknowledge that the Company has not made any representation to you other than those, which are specifically referred to or contained herein. Each paragraph and provision hereof is severable and if any provision is held invalid or unenforceable, the remaining provision shall nevertheless remain in full force and effect.

15. WAIVER

No waiver, alteration or modification of the foregoing terms and conditions shall be valid unless made in writing and signed on behalf of the Company by an officer of the Company duly authorised to do so. No waiver by the Company with respect to any breach or default or any right or remedy or any variation of the foregoing terms and conditions shall be deemed to constitute a continuing waiver of any other breach or default or any other right or remedy or any other variation of the foregoing terms and conditions.

16. BREACH

A breach by you of all or any of the terms and conditions herein contained shall entitle the Company to consider the order as cancelled, without prejudice to the right of the Company to recover damages for breach of contract or otherwise.

17. WARRANTY AND INDEMNITY

Any implied warranty of merchantability fitness for particular purpose or other warranty of quality, whether express or implied by law, is hereby excluded to the extent permitted by law.

In no event shall the Company be liable for any incidental, indirect or consequential damages including, but not limited to, loss of profit, loss of use or production or loss of capital. Your remedies set forth herein are exclusive, and the total potential liability of the Company arising out of any contract or from the collection and recycling of Waste and the supply of any Bulk Pallet boxes shall not exceed the purchase price of such service or products upon which liability is based.

You shall indemnify Avery Dennison and hold Avery Dennison harmless against all claims, lawsuits or proceedings, losses, damages, liabilities and costs, attributable to any act or omission by you, arising from any injury or death to persons or loss of or injury to property or breach of applicable law by you (including breach of the applicable anti-bribery legislation, both national and foreign). Further, Avery Dennison shall not be held liable under any circumstances for any claims or losses incurred by it and shall further be indemnified by you as a result of (i) any inadequacies undertaken by you identified under the terms hereof; or (ii) breach of this agreement or applicable law by you.

The Recycler shall indemnify Avery Dennison and hold Avery Dennison harmless against all claims, lawsuits or proceedings, losses, damages, liabilities and costs, attributable to any act or omission of the Recycler, arising from any injury or death to persons or loss of or injury to property or breach of applicable law by the Recycler including, but not limited to, the breach of the applicable anti-bribery legislation, both national and foreign, including, but not limited to, the Prevention of Corruption Act, 1988 of India and The Foreign Corrupt Practices Act of 1977 of United States of America, and which are in any way connected with or arise out of this Agreement. Further, Avery Dennison shall not be held liable under any circumstances for any claims or losses incurred by it and shall further be indemnified by Recycler as a result of (i) any inadequacies identified using the Services of the Recycler; or (ii) breach of the Agreement or applicable law by Recycler.

18. CONSTRUCTION OF CONTRACTS

The validity, interpretation and performance of any contract for the sale of Products by the Company to the Purchaser shall be governed by and constructed in accordance with the laws of the State of Victoria.
